

Ken Simpson, Founder, President and CEO of *Skin 2 Skin Care*™ has over 32 years of experience in conceptualizing, developing and marketing skin care products for some of the world's most renowned retail companies and upscale destination spas. Across the nation from Hawaii to New York, Mr. Simpson has utilized his creative talents for such prominent establishments from the Spa Grande at Maui's Grand Wailea Resort to Henri Bendel of New York and everywhere in between. Ken's formidable knowledge of the industry has been sought out by other such notable places that include, but not limited to, the Spa Del at the Hotel del Coronado, Spa La Costa, the Spa at The Doral in Miami and by one of our nation's foremost retailers, Neiman Marcus.

For the past two years Ken has worked on developing the most advanced anti-aging, USDA organic skin care line available without a prescription. Ken's mission is to establish his *Skin 2 Skin Care*™ line as the ultimate anti-aging product that best represents unparalleled quality. His method for success is combining the latest advancements in anti-aging technology, USDA organic extracts, essential oils, vitamins and minerals to assist in epidermal rebirth for a much younger and, most importantly, healthier looking skin. *Skin 2 Skin Care*™ accomplishes this by repairing, rejuvenating and protecting the skin from photoaging, reducing the visible signs of deep wrinkles, minimizing sagging skin and balancing the skin's functions while assisting the growth of healthy skin. *Skin 2 Skin Care*™ is made from all natural and USDA Organic certified botanicals and essential oils whenever possible in our formulations.

This exclusive skin care line is produced in an FDA certified state of the art manufacturing facility. *Skin 2 Skin Care*™ products are created in small batches using the highest percentage of active quality ingredients possible to achieve the best results. *Skin 2 Skin Care*™ maintains the highest standards of quality control in order to offer the best anti-aging skin care products the industry has to offer and of course ingredients that are known carcinogens. Without Parabens, Sulfates, Mineral Oil, Paraffin, Synthetic Color, PABA or any animal testing are factors that never come into play in creating this skin care system.

skin 2 skin™

Lastly, one of the most important aspects of this Company is their belief and dedication to protecting and preserving our fragile environment. They do their utmost in being *Green* by using local ingredients to limit fuel consumption, reduce packaging to minimize waste and utilize recycled containers to further their environmental involvement.

Skin 2 Skin Care™ will be introduced to the market September 2008. For more information contact Ken Simpson at 760-322-5909, fax 1-760327-6573, E-mail Ken@Skin2SkinCare.com
